Welcome to the 2023 Kentucky Farm Bureau Beef Expo

For nearly four decades, the Kentucky Farm Bureau Beef Expo has served as one of the region's premiere livestock showcases to buy, sell, and show some of the best cattle in the country. And this year will be no exception.

As we continue to see this event grow, attendees get a firsthand look at how dedicated our cattle producers are to this agriculture sector that is incredibly important to our state's overall ag economy. With Kentucky's cattle industry representing 13 percent of all agriculture cash receipts, there has never been a better or more important time to be involved in this sector of our livestock industry.

One of the most exciting parts of this expo is the participation by so many youth exhibitors. This younger generation is truly the future of this industry and of farming communities throughout this state. They have become an integral part of the expo and we are excited to see them continue to contribute to our cattle industry now and in the future.

We welcome all of our exhibitors and those who continually work to make this event so successful year after year. It takes a dedicated group of people to put this expo together and we are so appreciative of each and every one.

I hope you have a successful KFB Beef Expo and a promising year on the farm as your efforts continue to enhance our wonderful agricultural industry that none of us can live without.

Sincerely,
Mark Haney

This classy June has big time potential! 6012 is great at the ground, loads of middle, and still has that great look from the side. 6012 is the first natural calf of Luanna 4180 who was the Reserve Grand Champion bred and owned female at the 2021 NAJRAE. The Luanna cow family is one of the winningest cow families that stems straight from the heart of the TC Reds program.

This daughter of the 2018 Dixie National and KY State Fair Champion Female and the popular Red Eagle Bull is one you don't want to miss out on. She is very eye appealing with plenty of depth and spring of rib. She is just a May and I think she will be very competitive in that summer division.

Delilah K2 is an awesome cow prospect that can still provide some fun in the show ring this year. She is easy keeping, extremely long sided, and sound structured. Her dam, 1426-1685 is one of our favorites that consistently produces quality calves that carry on her maternal consistency and udder quality. The 1426-1685 x Red Eagle mating is one that we use often and continue to use to get heifers like this!

We are big fans of this late October heifer. If you are looking for a gentle animal to add to your herd or looking for one that will be easy to work with in the show ring then this is the one you want to get your hands on. Along with her gentle nature she offers depth and length in her structure. Her sire was the 2019 Tennessee State Fair Reserve Champion Bull. Her dam produces calves that we generally like to keep but are excited to offer this opportunity on a heifer that will enhance your herd.

The now deceased \$30,000 valued Lazy MC Lady 17Y is a past Canadian Res National Champion Female, Show Female of the Year and acclaimed to be her sire Cowboy Cut's "Poster Child." She's so much more than a pretty picture though, producing numerous sale toppers and replacements in the US, Canada, as well as Angus-Miss World, Qualifier (Portugal). She was known for passing on her outstanding style, body mass and bone to her progeny. International interest has led to us exporting her embryos to Western Reds, Australia as well. We're currently using a son, VETO Gold Standard, naturally who's making some impressive calves. She's worked well in conventional embryo production but she excelled in IVF. In the '23 Red Revolution sale during Cattleman's Congress, OKC we sold 12 embryos into 3 states for an average of just over \$560 each. These embryos are qualified for Australian export.

Guaranteeing 1 pregnancy if implanted by a certified AETA technician.

1/31/23 to 3/1/23 VETO Journeyman (4526895)

919J is the first of our 5 paternal sisters sired by the popular and proven ST Genetics sire Pelton Wideload 78B, the paternal brother to the rare and deceased MANN Red Box 75C from a 108 MPPA dam and a grandson of the famed Meado West Persuasion. 78B has been our go-to sire for making deep bodied, thick and feminine females with near perfect udders. We have several in the cowherd so we feel comfortable in offering these fall breds from nationally known grandams and families. 919 in her first three generations brings such greats as Meado West Persuasion, Star 185M and Bess 2S (the dam of the great Lazy MC Detour) Her dam, 109F, is the result of a flush purchased from BCR Ventures, TX from their top donor, 176B. We have 2 of her full sisters in the VVF herd, another flush sister was a top selling lot as our guest consignment to the Whitley's 2018 "Share the Herd" sale. 919 has the trademark look you expect from her elite heritage in a moderate, deep bodied, feminine package. APE 12/27/22 - 1/31/23 to LSF SRR EZ Factor 9056G (4110072) our resident calving ease, carcass specialist and a high selling herd bull in the Ludvigson dispersal, pictured on the IFC of this catalog, then to VETO Journeyman (4526895) 1/31/23 to 3/1/23 a WFL Merlin 018A x LSF Saga 1040Y bred son of our signature female Feddes Lakina D6, who's a long bodied, dark red 2 year old. Resulting calf will need to be DNA sire verified depending on birthdate, ultrasound results available sale day.

PE 12/27/22 - 1/31/23 to LSF SRR EZ Factor 9056G (4110072)
Palpated 6 months bred on 2/8/2023 (Likely bred to EZ)

1/19/23 was a sad day at VVF, as we sadly lost 678 (305's dam) We thought long and hard about offering her, 678 would've been 17 in March and was still sound with perfect feet and an outstanding disposition that never wavered, she was buried at the farm and will be greatly missed. We've sold very few 678 daughters because of the outstanding eye appeal, bone, maternal look and disposition she passed on, the ones we have offered have been successful show heifers and donors for their new owners. We have several daughters in the herd, she has 35 progeny registered with RAAA, along with 15 heifer sorted embryos and many more conventionals, her legacy will live on. 305 is a flushmate to VETO Blockanna 301J that sold to Aubrey Newman in AL who had a successful run on the AL Jr show circuit. 678 herself won back-to-back Grands at the TN State Fair and her first calf was Grand at the 2017 Mid South Fair 3 weeks later as a 7 month old! Note 305's 2 grandams are true legends of the breed, Peek A Boo and Blockanna 807, who wrote chapters in the RA history books for their show accomplishments. Bojangles is a past NAILE champion bull, with all of this in her first 2 generations, her future is bright! Only because we have another full sister we're retaining is she being offered. AI'd 6/17/22 to Bieber Stockmarket (3751659), then PE LSF SRR EZ Factor 9056G (4110072) our resident calving ease, carcass specialist and a high selling herd bull in the Ludvigson dispersal, pictured on the IFC of this catalog. Palpated 6 months bred on 2/8/23 (likely bred to EZ)

Heifer calf at side Born 1-8-2023 BW 72

If you are looking for a deep bodied, stout boned cow, you may have an interest in this Revolution daughter. This 2-year-old female is maternally sound and has a heifer calf at side Born 1-8-2023 BW 72. You will appreciate this cow with her heifer calf at side. She will sell open, take her home and turn her out she will make a great cow addition to your herd.

Bull Calf at Side Born 1-12-2023 BW 74

This 2-year-old cow speaks volume and has a bull calf at side Born 1-12-2023 BW 74. This female is big topped, deep sided and has a big hind quarter. I appreciate that she is maternal in her look, is big footed and sound structured. Turn her out with your herd and watch them work. She is open so you can breed her back to your choice.

Bull calf at side

SL 9117 Guidance 2205(4645953) Born 9/9/2022

This attractive, second-calf, three year old cow goes back to a Silveiras Mission Nexus 1378 son, on the sire side, She's moderate sized, very deep sided, and bold ribbed. She is feminine, clean fronted, and is an excellent milker. She is structurally correct with good feet and legs. This young cow is the dam of the 2102 Moon Shot Senior yearling bull that is being sold at this 2023 Kentucky Beef Expo. She is currently raising a really nice EGL Guidance sired bull calf, born 9-9-2022 that has loads of eye appeal. This Guidance calf is thick made, deep sided, clean fronted, and up-headed. This Guidance calf is a herd bull prospect, or would make an absolutely outstanding show steer! The cow, 1031G, was A.I.'d on Dec. 6th to Pie Captain 057, and pasture exposed to SL 1296 Mr Coach 2007 and SL 1296 Mr Coach 2003, from December 8 th through January.

Bull calf at side WDSC Red Eagle K3 (4710163)
Sired by EGL GCC Red Eagle, Born 11/7/2022
Pasture Exposed to WDSC Sailors' Delight (4638841)

I bought Ellie as a show heifer and we had a lot of fun together in the ring. I love her depth of side, stoutness of bone, and sound structure. She is a out of the famed Meado-West Persuasion cow that has produced many breed headliners and sired by Cowboy Cut who is breed famous in his own right. Her full sister, SLGN Yoninah, was Reserve Grand Female at Denver and Louisville in 2012.

Heifer calf was born on 09/24/22,
sired by True Gritt Mac 010 (4411899)

This cow is big footed, stout and deep bodied female that has been productive in our herd for the last few years. This females dam was purchased from Shady Knoll Cattle Company a few years back that was sired by Majestic Lighting. She was a staple in our herd producing attractive females. The heifer calf beside her that was born on 09/24/22 was sired by a Pelton Wideload son we purchased from True Gritt. She contains body mass, eye appeal and a great disposition.

Red Angus Guide to EPDS and Indexes

ProS... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

DECTOMAX® AND VALBAZEN®, TWO THINGS YOUR ENTIRE OPERATION WILL AGREE ON.

Protect your profits with DECTOMAX® Injectable or Pour-On, and give your herd unparalleled broad-spectrum parasite control. In fact, stocker trials have shown that cattle treated with DECTOMAX outperformed those treated with injectable ivermectin or ivermectin with clorsulon by up to 26 pounds.¹

VALBAZEN® oral drench dewormer protects your profits and your herd, controlling 25 different parasites and larval stages. VALBAZEN is the only drench dewormer that controls *Cooperia* spp., *Ostertagia ostertagi* and liver flukes.

LEARN MORE AT GetLessParasites.com

DECTOMAX Injectable has a 35-day pre-slaughter withdrawal period. DECTOMAX Pour-On has a 45-day pre-slaughter withdrawal period. Do not use in female dairy cattle 20 months of age or older. Do not use in calves to be processed for veal. DECTOMAX has been developed specifically for cattle and swine. Use in dogs may result in fatalities.

Cattle must not be slaughtered within 27 days after the last treatment with VALBAZEN. Do not use in female dairy cattle of breeding age. Do not administer to female cattle during the first 45 days of pregnancy or for 45 days after removal of bulls.

DECTOMAX®

Show & Sale

SALE TERMS & CONDITIONS

TERMS: Terms of the sale are cash, check, credit card, or other terms agreed to in writing between seller, buyer and sale manager payable immediately upon conclusion of the sale before animals will be moved. Sale manager reserves the right to require certified check a settlement before releasing any cattle.

PURCHASER'S RISK: All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

BIDDING: Any disputes or challenges regarding bids or tie bids will be settled by the auctioneer and his decision will be final.

CERTIFICATE OF REGISTRY: A certificate of registry for each animal will be transferred to the buyer at the seller's expense.

ANNOUNCEMENTS: Any errors or changes in information contained in the catalog will be announced from the block. Such announcements shall take precedence over the information contained herein.

HEALTH: All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Arrangements for international shipment should be made with the sale manager prior to the auction. All efforts for the exportation for cattle can be arranged through the sale manager.

BREEDING GUARANTEE: All animals are guaranteed by the seller as outlined in the Red Angus Association of America Breeders Guide Sale Terms and Conditions.

LIABILITIES: All persons who attend the sale do so at their own risk. The seller, auction facility and sale manager assumes no liability for any accidents that may occur. Neither does the seller, auction facility or sales manager assume liability for the loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and seller. They are not responsible for in any way the failure on the part of the buyer or seller to live up to their obligations or for the part of the buyer or seller to live up to their obligations or for the truth of any warranties or representation, expressed or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action that may in exceptional cases to be taken must be between the buyer and the seller. This catalog has pedigrees and information supplied by sources deemed reliable, however, the sale manager will in no way guarantee the pedigree, percentages of the animals selling, or data included in this catalog. Any expectations taken are between the buyer and seller.

CONTRACT: The above terms and conditions of sale shall constitute a contract between the buyer and seller or each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

MAIL BIDS: Mail bids will be accepted.

TELEPHONE BIDS: Telephone bids will be taken by the sale manager or committee members. The sale day numbers are listed on the consigner page of this catalog.
